Dear Harold,

I talked with you briefly on the morgan show in S. F. Sunday. You wanted the pages of the FBI reports.

Volume ~~XVII~~, page 741, J. Edgar Hoover writes "9 additional affidavits — who because of their assignments, would have contact with Oswald. They deny knowledge that Oswald was informant. Pages 742 — 752 - list the men. - Shanklen, Clark, Hall, Carter Brown, Howe, Mayson, Quigley Lyman — BUT no DeBrueys.

If you asked me about a a. N.Y Times story in Jan 64 a president- wounds. My clippings date back to Nov 25, 1963 — but were not thorough — at the start. Each month I saw the importance of saving everything. That early in the game I am sorry to say, I did not cut + file all the stories.

In whitness I — or somewhere - I got the impression you did not have Ruby's adress. But now you must — because of the proximity to Boone.

Ruby 4749 Homer
Boone 4740 Homer

I understand they had same landlord, shared same pool

Another coincidence never checked out — Ruth's friend + confidant Wills — fellow employee — lived in Irving Texas — very close to Mrs Paine on 5th St. She was never called as a witness.

Busy as usual — would like to have a radio talk with you one night we could discuss it light on topic — such as FBI inaccuracies.

Sincerely,
Mal Brussell
